Prototype Demo 1 Grading Criteria
CS 4311
Fall 2013

Team: _____

Checklist	Score
Correctness, completeness, and usability ❑ Are a few core features identified and *correctly* implemented? ❑ Are the implemented features *complete* in that they are usable by the customer? ❑ Is the UI *usable* (e.g., designed by following UI design principles, standards, and style guides)? • Core feature 1 • Core feature 2 • Core feature 3	___/65 pts
Design structure ❑ Modularity: decomposed into a set of highly cohesive but loosely coupled modules? ❑ Abstraction: capture the essence of the behavior of the module? ❑ Encapsulation: information hiding to reduce coupling among modules? ❑ Code reuse	___/20 pts
Coding ❑ Readability and understandability of source code ❑ Documentation (e.g., API and source comments) ❑ Proper naming of modules (e.g., classes and methods)	___/15 pts
Total	**____/100 pts**
